PROFESSIONAL SUMMARY

Flutter Developer / Mobile Application Developer with **9+ years of software development experience**, including **5+ years specializing in Flutter and Dart for cross-platform Android and iOS applications**. Experienced in developing and maintaining production mobile apps, integrating REST APIs and Firebase services, implementing state management with Provider and GetX, and troubleshooting application issues. Familiar with Git-based collaboration, code reviews, and CI/CD concepts through hands-on learning projects using GitHub Actions. Also experienced with React.js and Redux, with ongoing development in Next.js and TypeScript.

CORE TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Android, iOS, responsive UI, mobile application maintenance
- **State Management & Architecture:** Provider, GetX, Clean Architecture, MVVM, Repository Pattern
- **Backend Integration:** REST APIs, JSON, Dio, Firebase Authentication, Cloud Firestore, Firebase Cloud Messaging
- **Testing & Troubleshooting:** Debugging, production issue resolution, application validation, performance optimization
- **Version Control & CI/CD:** Git, GitHub, GitHub Actions (learning project), CI/CD fundamentals
- **Web Development:** React.js, Redux, JavaScript, TypeScript, Next.js, Tailwind CSS

PROFESSIONAL EXPERIENCE

Mobile Developer (Flutter)

Freelance, Myanmar | Jan 2026 – Jun 2026 | Part-time

- **Developed a real-time Kitchen Display System (KDS)** using Flutter and Firebase to help kitchen staff manage and monitor incoming orders.
- **Implemented real-time order synchronization and status management**, allowing kitchen staff to receive and track order updates across devices.
- **Implemented configurable item display modes**, allowing kitchen staff to switch between standard layouts and **time-based item grouping using 5, 10, and 20-minute waiting intervals**.
- **Implemented individual item waiting-time tracking and alerts**, making older pending items more visible and helping kitchen staff prioritize delayed items.
- **Streamlined kitchen order management** through synchronized digital workflows, helping reduce time spent handling and tracking orders.

- Maintained and improved the application based on operational requirements, troubleshooting issues and improving usability and reliability.

Mobile Developer (Flutter, React Native)

We Success Co., Ltd, Thailand| Dec 2024 – Dec 2025 (Contract)

- **Maintained and supported production Android and iOS applications built with Flutter,** resolving issues and implementing ongoing improvements to ensure application reliability.
- **Designed and developed a React Native membership system** for agents and customers, including product browsing, product ordering, and payment workflows.
- **Launched the React Native membership application on both Google Play and Apple App Store,** supporting the release process across Android and iOS.
- Collaborated with cross-functional teams to understand requirements, implement features, and resolve issues throughout the development and release lifecycle.

Senior Mobile Developer (Flutter)

Oriental Vigour Pre Ltd, Myanmar| Nov 2023 – Nov 2024

- **Provided technical and coding guidance to 2 junior mobile developers**, helping troubleshoot implementation issues and improve code quality.
- **Designed, developed, and maintained Android and iOS applications** using Flutter, including the Myanmar Travel App (Smoove) and an online entertainment and ticketing platform.
- **Collaborated with cross-functional teams**, including project leaders, QA, design, and backend teams, to clarify requirements and deliver mobile features.
- **Investigated and resolved issues reported through QA testing and project leader feedback**, improving application stability and release readiness
- Developed the **Myanmar Travel App (Smoove)** featuring travel content, attractions, hotels, restaurants, and Google Maps integration.
- Developed an **online entertainment and ticketing platform** supporting digital content and online ticket purchasing workflows.

Mobile Developer (Flutter)

Super Seven Stars International , Myanmar | Oct 2022 – Oct 2023

- **Developed and maintained the Grocery Fresh Store e-commerce application** for Android and iOS, implementing features based on business and user requirements.
- **Provided technical and coding guidance to mobile team members**, helping troubleshoot implementation issues and maintain consistent code quality across projects.
- **Collaborated with product, design, backend, and QA teams** to clarify requirements, deliver features, troubleshoot issues, and incorporate testing feedback.
- Implemented **production fixes and UX improvements** to improve application usability and reliability.
- **Managed TestFlight beta releases and technical documentation**, supporting application testing and release readiness.

Analyst Developer (Flutter , ReactJs)

Mokkon24 (Start-up) , Myanmar | Jul 2018 – Mar 2022

- **Took a technical leadership role within the mobile team**, mentoring 2 junior developers, conducting code reviews, providing coding guidance, and helping resolve technical issues.
- **Worked directly with clients to understand business requirements and operational challenges**, translating their needs into practical technical solutions.
- **Designed and developed enterprise applications** including Foresight Petrol Station Management, FCS Logistics, Petrol-K Loyalty, and administrative management systems.

- **Developed the Foresight Petrol Station Management application** for a client involved in petrol station equipment supply and station development, supporting operational workflows across multiple station locations.
- **Developed React.js administrative dashboards** for office staff to manage and monitor business operations.
- Delivered business features covering **POS, inventory management, customer management, logistics tracking, and loyalty programs**, integrating REST APIs and Firebase services.

PHP Developer (CakePHP2)

Brilliant Sky Group, Myanmar | Apr 2016 – Apr 2018

- Developed and maintained web and mobile applications using PHP/CakePHP, integrating REST APIs and database-driven features.
- Implemented new features, optimized database queries, and maintained responsive user interfaces.

Junior Web Developer

Active Agent Group, Myanmar | May 2014– Oct 2015

- Developed PHP/CodeIgniter web applications and supported data migration and content management.
- Contributed to a Japan Red Cross earthquake safety training game for primary school children using Unity.

EDUCATION

Bachelor of Computer Science

University of Computer Studies Yangon, Myanmar **Graduated: 2014**
